Ellebi Gioielli - Petali di Rosa

9 October 2019

**Take your eyes off the technology to be able to appreciate the little things again: this is the message behind the Petali di Rosa collection created by the Roman artist Livia Bonanni. The flowers represent the essence of nature's beauty, enclosed in the delicacy of the petals, key elements of every jewel.**

The creations of Ellebi Gioielli, brand founded by the artist, are designed and made entirely by hand using the lost wax technique. Every single element is therefore unique and different from all others, just like nature itself teaches, making every imperfection even more special. The petals envelop the hands and décolleté of the women who rely on Livia, wrapping each outfit with delicacy and magic. For the artist, every flower, like every woman, has its own story to tell, which can be bold and refined at the same time.

Livia Bonanni will present this collection at Artistar Jewels 2019 Fall Edition, an annual Contemporary Jewelry project that brings together the most talented artists from this sector from all over the world. The event is scheduled from 24 to 27 October during the Milano Jewelry Week, a new week of the Milanese schedule entirely dedicated to the world of jewelry, and will be hosted at Palazzo Bovara in Corso Venezia 51.
