Yatzer Loves

A week after the end of MILAN DESIGN WEEK, we're ready to share a selection of projects, products, artworks and exhibitions that caught **Yatzer's** eye between the 14 and 19 of April 2015, some of which will be still running during **Expo Milano 2015**, the International Exhibition which will be hosted in Italy's design and commerce capital from May 1 to October 31, 2015.

For the second year in a row, the usual design districts (**Tortona**, **Lambrate**, **Brera** and the sprawling **RHO Fiera** with its endless halls of **Salone Internazionale del Mobile**) were joined by the new **5VIE** district, with paths that incorporated beautiful shops, archaeological finds and courtyards in historical buildings and the 'Exercises in seating' exhibition dedicated to the work of the British designer/sculptor **Max Lamb** organised by **Federica Sala**.

**Corazón Moreno** terracota collection by **Rodrigo Noriega** & **Luis Vega** (México DF) **Pau Stephens** & **Rick Rossenham** (Querétaro) **Pedro Arturo** & **Alejandro Macias** (Monterrey). The collection was made at **La Tora**.
