

Delicate but Strong: A Combination Hard to Come By

MYLES LOUIS DAY

17 April 2015

No Comments

Serena Fanara's paper luminaire on display at Ventura Lambrate this week is more than meets the eye. The unique paper material may seem delicately textured however it is heat resistant, rigid, and repels dust which saves having to clean those incredibly tight spaces. Take the most beautiful picture of the installation and you could win a free lamp this week at Ventura Lambrate.
