The city of Milan set the stage for the grand international jewelry festival
The third edition of the Milano Jewelry Week concluded with overwhelmingly positive feedback and an increase in both national and international attendance.

Milan, Oct. 23, 2023 – Yesterday marked the end of the third edition of Milano Jewelry Week, a week sponsored by the City of Milan and C.N.A. Federmoda, which brought more than 100 events to life in the heart of Milan from October 17 to 22.

Several new features were introduced for this latest edition, resulting in an increased number of visitors and significant interest from industry experts, especially buyers and press officers both national and international.

“We are delighted with the excellent feedback from visitors who participated in these events across the Milan area. Our aim was to bring people closer to the jewelry sector and allow everyone to discover what lies behind a piece of jewelry. We achieved our objective, thanks to the participation not only of experts but also of numerous enthusiasts who, at the various events, had the opportunity to admire the beauty of the different creations up close,” commented Enzo Carbone, CEO of Prodes Italia, the founding company of Milano Jewelry Week. Over 350 exhibitors from 40 different countries were welcomed to prestigious locations in the heart of Milan. From October 19 to 22, the city hosted the three iconic collective events of the Week, along with special events, themed exhibitions, workshops, live performances, talks, conferences, and cocktail parties.
